Meeting Tour:

Omega Protein
610 Menhaden Drive
Reedville, Va. (Northumberland County)
phone (804) 453-4211

History on Omega Protein

Omega Protein is the world's largest manufacturer of heart-healthy fish oils containing Omega-3 fatty acids for human consumption, as well as specialty fish meals and fish oil used as value-added ingredients in aquaculture, swine and other livestock feeds. Omega Protein makes its products from menhaden, an Omega-3 rich fish that is not utilized for seafood, but which is abundantly available along the U.S. Gulf of Mexico and Atlantic Coasts. The Company utilizes a fleet of fishing vessels supported by spotter aircraft to supply menhaden to its four processing facilities in Louisiana, Mississippi and Virginia.
